# Introduction

This report provides an analysis of the updated Sensor Tower Puzzle Taxonomy. Discover trends in revenue and downloads of various Puzzle sub-genres over the past two years.

Explore the top 10 games ranked by downloads and revenue and how they leverage multiple Meta and Monetization features for success.

Finally, explore the trends in Product Models over the past two years, with a special focus on the rise of the Hybridcasual Product Model and the new opportunities it brings to the Puzzle gaming landscape.

# About This Data

Sensor Tower's Qualitative Insights team created the revenue and download forecasts featured in this report using the Sensor Tower Store Intelligence platform.

- Figures cited in this report reflect App Store and Google Play consumer spending and download estimates for January 1, 2018 through Jun 15, 2023.
- All revenue figures in this report capture consumer spending (gross revenue). This includes the revenue earned by the app developer as well as the portion earned by Apple or Google.
- Android estimates represent revenue and downloads from the Google Play Store only. Sensor Tower does not provide spending or download estimates for third-party Android stores.

# New Puzzle Sub-Genre Definitions

**Swap** - Players swap adjacent pieces to create a match of two or more identical pieces.

**Blast** - Puzzle games where players "blasts" tiles by tapping on matching colors.

**Chain** - Players create chains of matching pieces to remove them from the board.

**Pair** - Players match groups of two or more identical pieces or tiles in order to remove them from the board.

**Sort** - Players arrange pieces in the correct order. The pieces may be laid out randomly or partially sorted, players need to determine the best way to arrange them.

**Jigsaw** - Players recreate an image by arranging and fitting together small, interlocking puzzle pieces.

**Real-Time** - Players are presented with a series of puzzles that require quick thinking and problem-solving in real-time. Players need to quickly strategize and adjust movements to keep up with the fast-paced gameplay.

**Riddle** - Players use logical reasoning to solve riddles. The goal is to find the correct solution by carefully considering all of the available information and options.

**Physics** - Players use the knowledge of physical concepts and manipulate objects such as rope, balls, blocks to solve puzzles.

**Environmental** - Players are presented with a series of challenges that require them to navigate the environment, and solve puzzles by exploring and manipulating objects in a given environment.

**Block** - Players drag bricks to create full lines on a grid, either vertically or horizontally to break bricks and score points. There are typically no time limits and bricks cannot be rotated

**Maze** - Players navigate through a complex network of passages, dead ends, and obstacles.

**Numbers** - Games that involve manipulating numbers in order to solve the puzzle.

**Other Puzzle** - Puzzle games that do not fit into other Puzzle sub-genres. Like Tic Tac Toe and Puzzle Hub.

# 2022 Revenue Breakdown by Country/Region

Revenue Share of Puzzle Games by Country/Region in 2022

# Trends of Physics, Merge, Pair, Block and Sort Puzzle from Q1 2022 to Q1 2023

Pair is the only selected sub-genre that showed significant growth in both downloads and revenue. Downloads in Pair were primarily driven by the Casual product model, but the revenue saw an increase led by Hybridcasual. In Q1 2022, Hybridcasual revenue was only \$7M, accounting for 14.8% of Pair's total revenue. However, by Q1 2023, revenue reached \$40M, making up 58.7% of Pair's total.

Merge experienced a shift in downloads, with Hypercasual contributions decreasing from 59.4% in Q1 2022 to only 31.8% in Q1 2023. Despite a slight decline in downloads, Casual continued to generate steady revenue through consistent operation and enriching Meta features.

Similarly, Physics also saw a decline in downloads, primarily influenced by the decrease in Hypercasual’s contribution, while revenue was mainly driven by Casual.

Sort went through a similar transformation in downloads and revenue due to shifts in the product model. Downloads were led by Hypercasual, while revenue was driven by Casual.

As for Block, downloads were dominated by Casual, showing a steady increase. However, revenue experienced a decline, indicating a potential need for more diversified IAP.

Worldwide Quarterly Downloads and Revenue, App Store and Google Play

# The Casual Product Model Dominates the Puzzle Game Market while Hybridcasual Shows Remarkable Revenue Growth

When comparing downloads and revenue from January to May 2023 to that of 2022, the Casual product model exhibited a modest decrease across both.

Despite attracting fewer new users, the monetization strategies in Hypercasual games are currently undergoing changes. In addition to in-app advertising as its main monetization stream, the introduction of in-app purchases has played a crucial role in driving revenue growth and retaining existing players.

The Hybridcasual product model experienced the a remarkable surge in both downloads and revenue. In comparison to the same period in 2022, revenue rose by an impressive 430%.
